**Meridian** is an online compliance and risk management system provided by William Martin Compliance.

It enables our clients to have total visibility across their portfolios and sites allowing them to proactively manage, monitor and report via our intelligent software solution.

Key features include:

- **Full visibility of critical requirements**
- **Real-time compliance management**
- **Document and action tracking**
- **Powerful and flexible reporting**
- **Clear data dashboard**
- **'Real person' team support**
- **Secure, safe, protected**
- **Management Information and Reporting**
- **Customisable dashboards and data grids**
- **Powerful data management**

**Meridian** is therefore a valuable facilitating system for ensuring legal compliance, minimising risk, optimising efficiency in administration, operational and management practices and hence promoting cost savings across the business.

## Why Meridian?

- **Customised Delivery** – enhancement of existing or development of new functionality to suit the individual business requirements of our clients.
- **In-House Software Team** – ensures ongoing and innovative development and delivery of new features and enhancements.
- **Interfacing with External Systems** – allows seamless data integration and minimises duplication of recording: insurance inspection, FM, helpdesk, maintenance software.
- **Meridian App** – off line completion of Inspection forms and action closure on your smart phone.
- **Intelligent Management Reports** – providing configurable reporting and management information - Board, Benchmarking, Performance, Trending.
- **Helpdesk** Guidance and immediate support for all queries.
- **Ease of Access** – laptop, PC, tablet or Smartphone.
- **Ease of Navigation** – user friendly fast and efficient navigation.
- **Robust Business Continuity** – safe, secure and protected with no down time.
- **Proven Track Record** – tried and tested over 10 years with excellent client feedback.
