Integrated platforms to
enhance visibility, increase
productivity and reduce risk.

OUR BRANDS

Compliance without compromise

We create next generation property compliance by **fusing clever consultancy with cutting-edge technology**, so our clients can grow.

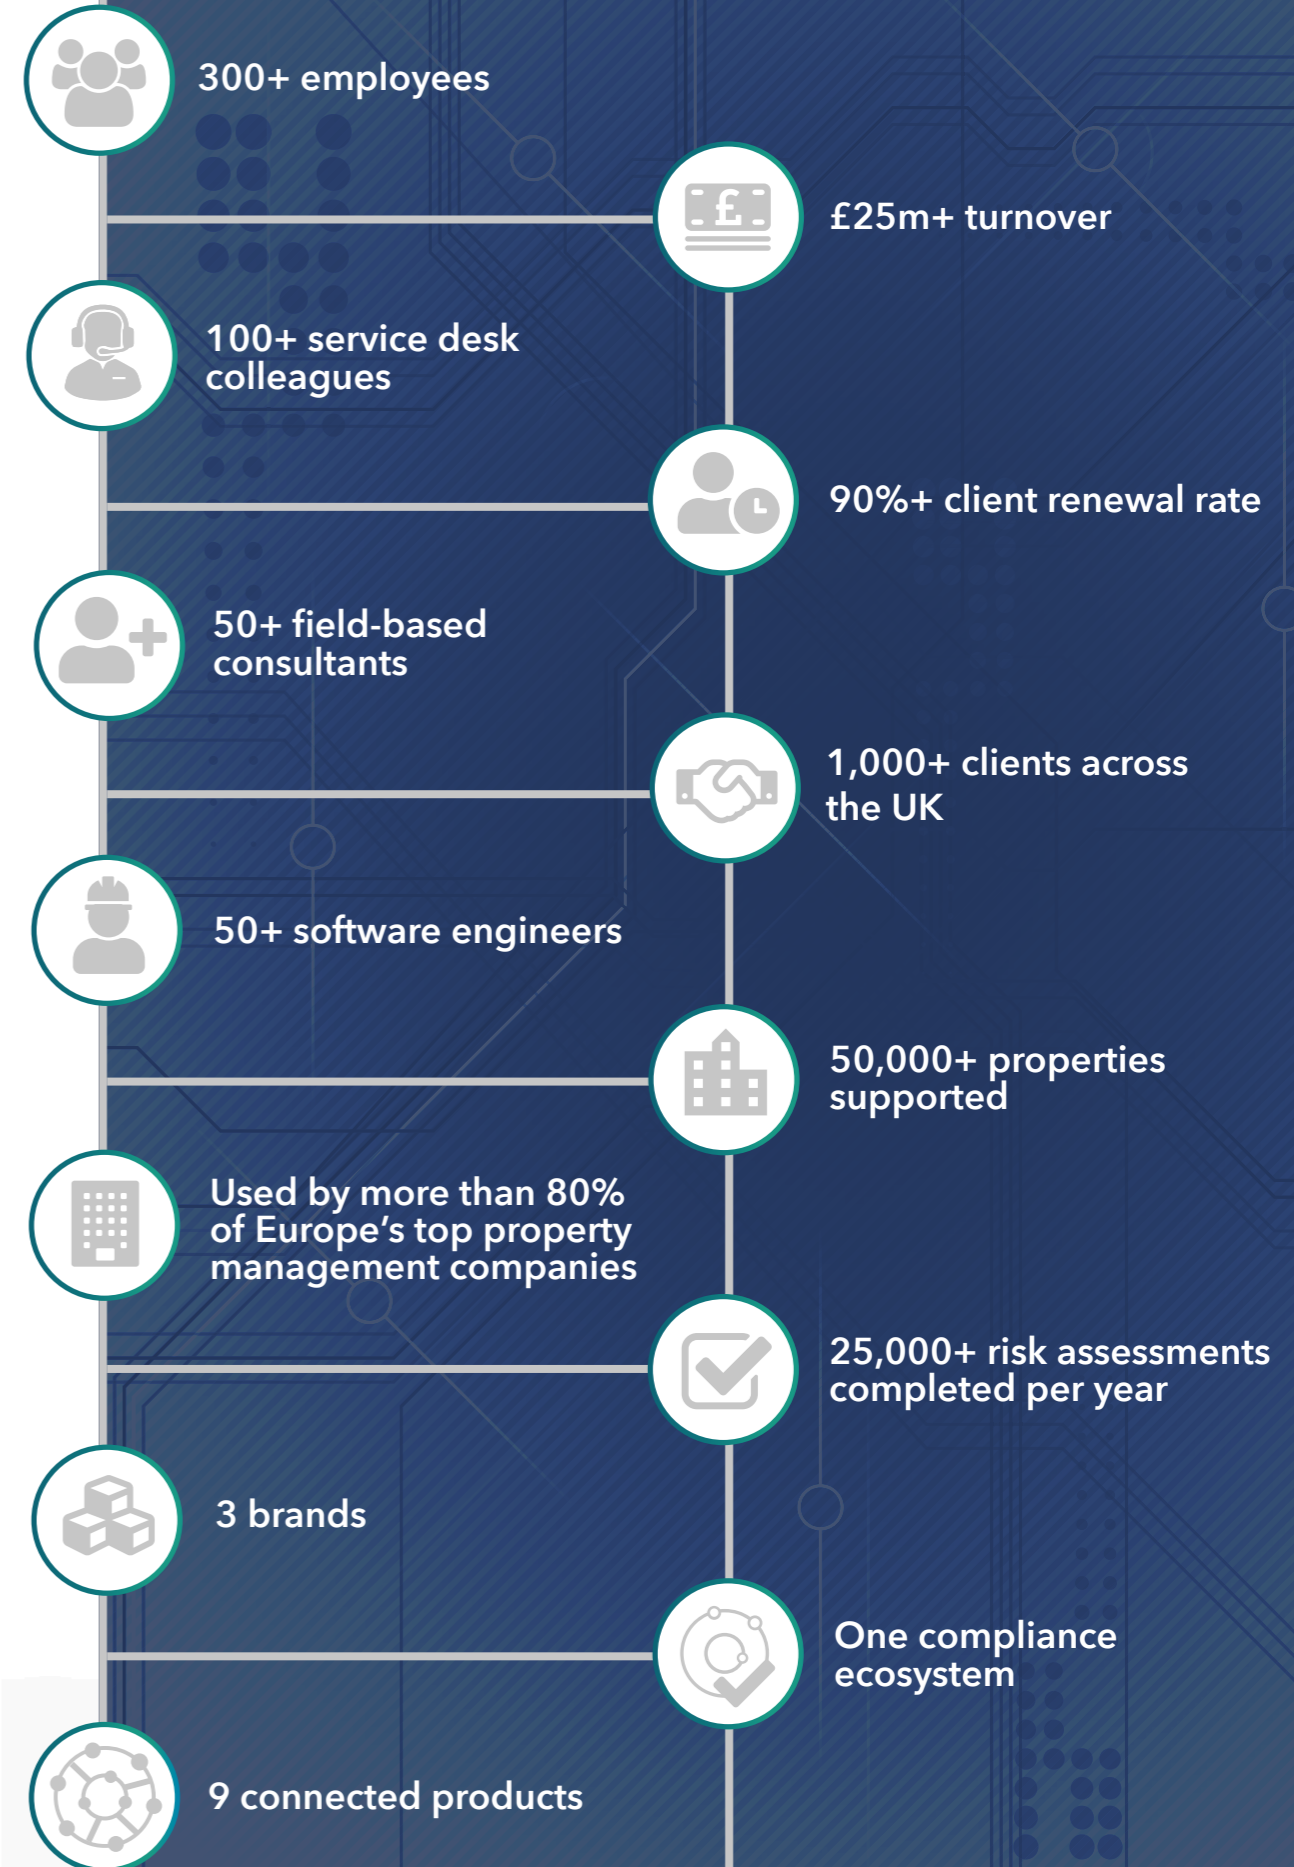

Powering better buildings

We manage property through the power of people and technology, giving our clients **the freedom to unlock the potential of their assets**.

Safe in our knowledge

We give our clients the resources and support they need to **master complex legislation and create impactful change** within their organisation.

OUR PRODUCTS

Compliance without compromise

At William Martin, we bring unparalleled expertise and powerful technology to the table. Whatever your sector and wherever you are, we give you the support you need to stay compliant, strong, and successful. We go beyond the usual and add value at every step. Our technology fits around you, and we get you up and running in no time. With easy configuration and insightful reports, you can track your risks in real time and gain total visibility of your supply chain.

It's compliance like you've never seen it before. Only at William Martin.

William Martin have been our risk management partners for many years now and have provided a consistently professional and valuable service.

Phil Jones
Managing Director, William Martin

Consultancy

Unparalleled expertise to safeguard your people and property.

Qualified, experienced, hands-on support.

Whatever you need, our team makes it happen. We offer you unrivalled expertise and quality consultancy rooted in extensive experience. With a substantial team of consultants across all areas of health, safety, and fire, we are a formidable strength in the industry.

Seamless integration between consultancy and technology.

William Martin consultants use brilliant data capture technology which ensures better, faster, and more insightful reports. Actions from your risk assessments and surveys are pushed into Meridian, so you can track your actions in real time and take quick, decisive action.

Local knowledge, national strength.

Since 2004, William Martin has earned a reputation for trust and reliability. We're the perfect partner for businesses of all sizes - from those managing just a few properties, to large enterprises with complex needs.

Meridian

Our online compliance and risk management platform gives you total visibility.

Track your health and safety risks in real time.

With Meridian, you can easily track vast amounts of data from your risk assessments, surveys and audits - all in one secure location. Say goodbye to spreadsheets, and hello to a streamlined solution that simplifies your workflow and saves you time and money.

Ditch the paperwork and focus on what really matters.

With integrated action management, your team will never miss a task or deadline again. Our user-friendly dashboards ensure you know exactly what to do, when to do it, and in what order. Less paper, more work.

Get the Board on board.

Whether you are a senior leader in a complex enterprise, or responsible for a single building, it's crucial that you can demonstrate your compliance. With bespoke dashboards and reporting, you can easily keep your stakeholders informed and spend your time driving real progress.

Prosure360

Take control of your supply chain, confidently and efficiently.

Your entire supply chain, all in one place.

Prosure360 takes the strain of ensuring your suppliers and contractors are in good shape: our expert team audit their core health & safety compliance, and Prosure360 tracks other crucial indicators like insurance certificates and financial health. That means all your core supply chain documentation is safe and secure in one place, updated in real time, and accessible from anywhere. And with that insight, you can make faster decisions and spend your time on the things that matter.

Go beyond the basics. Ask suppliers whatever you need to know.

For the first time, Prosure360 goes beyond industry-standard SSIP questions, letting you ask specific questions which are entirely unique to your business. Need all your suppliers to sign your organisation's Sustainability Charter? Worried about reputational risk, and keen to ensure all your suppliers pay the Living Wage? Whatever you need to know, Prosure360 has you covered.

A better experience for suppliers, and for you.

Our focus on engagement and support sets us apart from the competition. Unlike other platforms, we don't force your suppliers to conform to rigid processes. Instead, we offer guidance and support to ensure that they can successfully navigate the accreditation process. The user interface is fast and intuitive. And our membership benefits give your suppliers another great reason to use Prosure360. This approach fosters positive relationships with your suppliers, ultimately leading to better business outcomes for everyone involved.

Powering better buildings

At Elogs, we enable our clients to maximise their buildings' performance by providing support around the clock. With our team of experienced problem solvers and our unrivalled CAFM platform, you gain full control of your facilities' performance.

We give our clients the team and technology they need to manage their assets and deliver outstanding experiences around their built environment. Embedded in your business, we own jobs from start to finish and take full control of your service providers. This empowers you to focus on unlocking the potential of your assets.

Freedom - the Elogs way.

As a company, we find **Elogs** to be a very powerful and useful part of our work.

The support is outstanding, never leaving us stuck for long and always helping to keep things moving and working smoothly. Highly recommend this software and company.

Rob Mead

Managing Director, Elogs

CAFM+ Service Desk

Keep facilities and assets operating at peak performance.

CAFM backed by humans: an unbeatable combination.

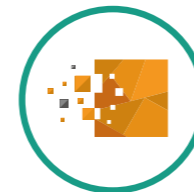

CAFM systems streamline the management of facilities, buildings, infrastructure and assets. At Elogs, we go beyond. Our CAFM is backed by an in-house, 24/7 Service Desk who proactively own jobs all the way, ensuring nothing gets dropped. Human, high-powered, handled.

Full visibility on all your facilities management activity.

Manage any number of sites, properties, and assets at a glance. Store all your documentation, track actions, and see comprehensive audit trails so everyone stays informed. Our solution ensures you can build high-performing assets while we do the hard work.

Integrate with other Marlowe SRC products for even better productivity.

When you use CAFM+ Service Desk with Prosure360, you can easily appoint verified and compliant service providers. Via Occupier Portal, you can enable tenants to seamlessly log building issues. And with Meridian, remedial actions from audits flow directly into CAFM. Better together; only at Marlowe SRC.

Facilities Services

Fabric maintenance managed efficiently, cost effectively, and to the highest quality.

Streamline all things related to fabric works.

We take responsibility for the operational management of your fabric maintenance requirements, so you can maximise efficiency, improve employee utilisation, and take control of your workday.

Maximise compliance, minimise risk.

By auditing your supply chain, health & safety documentation, and performance of contractors, we significantly reduce risk in your business. And with UK-wide coverage and 24/7 backup, we've got you covered.

Significantly reduce your accounting administration.

We keep it simple with a single monthly bill, and the option of individual invoices on a site-by-site basis, so that your accounting costs are significantly reduced.

Occupier Portal

Property portal to make facilities management easier.

Improve your engagement with tenants.

With Occupier Portal, managing your building and communicating with tenants has never been easier. From visitor management to event booking, it provides a range of features to streamline building management and enhance communication with tenants.

A better experience for your visitors.

Make it easier for front-of-house staff to manage visitors, print visitor passes, and alert the relevant person in the building to someone's arrival. Or with Kiosk Mode, visitors can check themselves in and out hassle-free.

Works seamlessly with CAFM+ Service Desk.

Occupier Portal integrates with Elogs, which means you can enable tenants to log and track building issues via the portal. Tenants can therefore keep track of job progress, rather than asking site management teams to log jobs and provide regular updates.

Safe in our knowledge

Barbour is a trusted and comprehensive provider of regulatory information, guidance, standards and resources to support you with your organisation's EHS compliance. Our knowledge of complex legislation and our flexible tools empower you to simplify and manage your diverse range of regulatory responsibilities.

It's about more than just legislation. Working with Barbour, you have a partner to help put solid compliance foundations in place, tools to influence company culture, and specialist consultancy. We help you stay on top of ever-changing industry developments, ensuring your organisation keeps people safe and protects the environment.

Save time, stay compliant: trust Barbour.

Barbour EHS is an invaluable resource which provides up-to-date, easily accessible information. It not only enables us to remain compliant but also saves us valuable time in a constantly changing world of EHS legislation.

Teresa Dier
Managing Director, Barbour EHS

Consolidated

Legislation with amendments, showing the law as it stands today.

A single source of truth for legislation amendments.

Our simplified portal provides current legislation with the most recent changes wrapped into one document so you're always looking at the most up-to-date version.

No need to interpret legal jargon. We tell you what you need to know.

We provide you with plain-English and factual breakdowns that tell you what the legislation means to help you understand what you need to do. This contains a short summary to understand the detail and any changes. On every page, we pull together all of the relevant guidance documents, drafts and consultations, and links to related legislation.

Easily find the exact information that you're looking for and sense check its relevance.

Our portal categorises legislation by topic, making it easier for you to find what you're looking for. If you then find you have any questions about legislation, we have a team of legal expert writers who are on hand to help you out with your queries.

Comprehensive

Legislation, guidance, standards and comprehensive tools to master EHS compliance.

Access relevant guidance, legislation and standards in one place.

Our authoritative online library provides you with legislation, guidance, trade association publications, British and Irish standards. We update this daily.

Influence your company culture and communicate everyone's responsibilities.

We provide ready-made and editable materials that communicate with all levels of your business. Take advantage of toolbox talks, model policies, directors briefings, employee factsheets, editable weekly newsletters, eLearning and whiteboard videos to ensure that everyone understands their responsibilities and retains the information.

Take control of compliance and implement important frameworks.

We give you the tools to put important compliance frameworks in place for your business. Our range of editable and downloadable resources includes legislation summaries, quick facts per country, technical guides, gap analysis tools, risk assessments, forms and checklists. No more spending time researching, interpreting, writing, and updating your own - simply download and use ours straight away.

Consultancy

Hands-on support with bespoke legal registers and training for your team.

A tailored build of your legal registers, and aspects & impacts register to put you on the right track.

Our specialist consultancy team will build your bespoke legal register. They will work with you to find the legislation that is relevant to your business and will detail why it's relevant. An accompanying Compliance Action Plan will flag up any areas that you need to work on. If you're looking for an aspects & impacts register, we can help you identify the aspects associated with your activities, products and services that could impact the environment. We can then look at the risks and opportunities and produce a register that ties it all together.

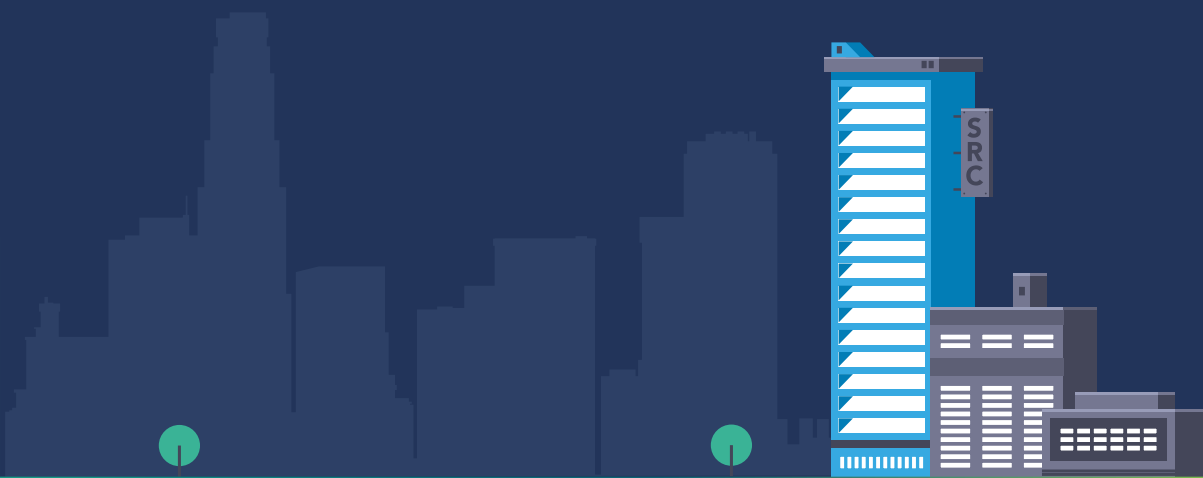

Take the pressure off updating your registers.

You can choose to add on our Managed Update Service where we will update your registers up to three times across the year. You will also receive a Register Revision Tracker to help you stay ahead before your next update, as well as give you early warning of new legislation (consultations, drafts etc.) so you are well prepared for coming legal changes.

Ensure fresh and accurate knowledge on crucial compliance areas.

We offer training courses that cover all the main legal requirements that you need to know within environment or safety. Suitable for all levels of knowledge, you can simply refresh your knowledge or use this training to support your managers. Whatever you need, we've got you covered.

Integrated platforms to enhance visibility,
increase productivity, and reduce risk.
