

COMPLIANCE WITHOUT COMPROMISE

We create next-generation property compliance by fusing clever consultancy with smart technology, so our clients can continually improve.

We go beyond the usual and aim to add value at every step. Our consultants provide pragmatic health and safety advice to reduce risk and to ensure you remain compliant. Our technology, with its easy configuration and insightful reporting, enables you to track your risks in real time and gain total visibility of your supply chain. Our approach fits around you - compliance like you've never seen it before.

Find out how we can help you.

CONSULTANCY

We don't compromise. Our unparalleled expertise and support safeguards your people and property.

MERIDIAN

Our online compliance and risk management software gives you total visibility.

Qualified, experienced, hands-on support.

Whatever you need, our team makes it happen. We offer you unrivalled expertise and quality consultancy rooted in extensive experience. With a substantial team of consultants across all areas of health, safety, and fire, we are a formidable strength in the industry.

Seamless integration between consultancy and technology.

William Martin consultants use brilliant data capture technology which ensures better, faster, and more insightful reports. Actions from your risk assessments and surveys are pushed into Meridian, so you can track your actions in real time and take quick, decisive action.

Local knowledge, national strength.

Since 2004, William Martin has earned a reputation for trust and reliability. We're the perfect partner for businesses of all sizes - from those managing just a few properties, to large enterprises with complex needs.

Health & Safety

Looking for a fully flexible health and safety consultancy that suits your needs? Look no further. We tailor our services to you, so you can rest assured that all your needs and expectations are met. We go beyond the usual and give honest and pragmatic advice, every time.

All our health and safety experts have at least 10 years of sector-specific and hands-on experience. Compliance without compromise, always.

Accessibility

We work with you to make any reasonable adjustments to policies and procedures for those with a disability. Our accessibility audits mean you create inclusive spaces.

Our access audit reports provide you with an action plan of accessibility adjustments, alternative ways to provide services and a look at the logistics of implementing any adjustments.

Environmental

Transform your environmental compliance with strong, solid and to-the-point advice.

Our environmental waste audits guide you on waste management and reducing your carbon footprint. We provide everything you need, from assessment, evaluation, reports, consultancy and honest, pragmatic advice to become more environmentally friendly.

Track your health and safety risks in real time.

With Meridian, you can easily track vast amounts of data from your risk assessments, surveys and audits – all in one secure location. Say goodbye to spreadsheets, and hello to a streamlined solution that simplifies your workflow and saves you time and money.

Ditch the paperwork and focus on what really matters.

With integrated action management, your team will never miss a task or deadline again. Our user-friendly dashboards ensure you know exactly what to do, when to do it, and in what order. Less paper, more work.

Get the Board on board.

Whether you are a senior leader in a complex enterprise, or responsible for a single building, it's crucial that you can demonstrate your compliance. With bespoke dashboards and reporting, you can easily keep your stakeholders informed and spend your time driving real progress.

Meridian Modules

Whatever your needs, Meridian's modules create a flexible system tailored just for you.

Property Information

Everything you need to know about your properties in one, easy-to-manage place. Each property has its own dashboard with any information you need readily available, including:

- Documents
- Actions
- Compliance reporting
- Photos

Need anything else? Meridian can be customised for any information you need.

Document and Action Compliance

Track all the key documents that your business needs. Meridian's configuration options allow you to record, track and report on document and action compliance.

Accident and Incident

Easily record and manage all the details of any incidents that happen on site, access trend reports and data analysis. Flexible and pragmatic, the module can be adapted to suit you.

Approved Contractor

Access a live, up-to-date directory of approved contractors. Meridian will do the work for you, enabling you to collate and monitor data and documents, while notifying contractors.

Inspection Forms

Easily complete pre-created inspection forms, both on and offline, which can be tracked in the document and action compliance module. The module can be tailored to your needs with the option to set up multiple inspection forms.

Permit Module

Seamlessly organise contractors. Contractors can make site visit requests and access all the necessary information on the property. Keep up to date on all stages of the process through automated emails.

Library

A hub for all your business-wide documents, all in one place, including:

- Policies and procedures
- Briefing notes
- Standard forms
- Templates

Easily send out notification emails to whoever needs them, and track and report on who has downloaded documents.

Training

Track all staff training progress, upload and store training certificates, set training reminders and set KPIs.

Your supply chain is critical to the performance of your organisation. Prosure360 streamlines your entire pre-qualification and SSIP assessment process, giving you peace of mind that your suppliers and contractors meet health & safety, sustainability and quality standards. Plus, for the first time, you have the ability to customise the questions you ask your supply chain: so not only can you ensure all the basics are covered, you can also ask any specific questions that are important to you. Everything's possible with Prosure360.

Your entire supply chain, all in one place.

Prosure360 takes the strain off ensuring your suppliers and contractors are in good shape. Our expert team audit their core health & safety compliance, and Prosure360 tracks other crucial indicators like insurance certificates and financial health. This means all your core supply chain documentation is safe and secure in one place, updated in real time, and accessible from anywhere. And with that insight, you can make faster decisions and spend your time on the things that matter.

Go beyond the basics. Ask suppliers whatever you need to know.

For the first time, Prosure360 goes beyond industry-standard SSIP questions, letting you ask specific questions which are entirely unique to your business. Need all your suppliers to sign your organisation's Sustainability Charter? Worried about reputational risk, and keen to ensure all your suppliers pay the Living Wage?

Whatever you need to know, Prosure360 has you covered.

A better experience for suppliers, and for you.

Our focus on engagement and support sets us apart from the competition. Unlike other platforms, we don't force your suppliers to conform to rigid processes. Instead, we offer guidance and support to ensure that they can successfully navigate the accreditation process. The user interface is fast and intuitive. And our membership benefits give your suppliers another great reason to use Prosure360.

This approach fosters positive relationships with your suppliers, ultimately leading to better business outcomes for everyone involved.
